

VACUUM GUN AIRMASTERS HAND VAC

The Vacuum Gun AIRMASTERS Hand Vac is the low cost solution to a variety of industrial housekeeping applications. It is a blow gun, a vacuum gun, a collection system and a transfer system in one simple package.

The Vacuum Gun AIRMASTERS Hand Vac is light weight die cast aluminum and uses less air than a normal blow gun. Our Vacuum gun amplified air flow is approximately 12 times the air consumption. It draws a vacuum at one end to produce a high vacuum for collection or transfer of materials. It is easily converted from a blow gun into a vacuum gun and back again.

The Vacuum Gun AIRMASTERS Hand Vac in blow-off mode, the 1-1/4" (32 mm) diameter allows it to cover a much greater area than a small blow gun for faster cleaning and drying.

The Vacuum Gun AIRMASTERS Hand Vac can also be used to transfer material over a long distance using a vacuum hose which can be supplied. The gun in vacuum mode, it can be used to vacuum up debris if more appropriate than blowing air, and debris can be collected in a reusable vacuum bag available.

The Vacuum Gun AIRMASTERS Hand Vac can be purchased with the complete set, which will consist of all the accessories shown in the picture below or only the Hand Vac gun, which is shown on the left side.

Blowing force at 5 Bar

3.5N

Air consumption at 5 Bar

22 Nm³/h

Air Amplification

12:1

Sound level at 5 Bar

73dB(A)

Material

Aluminum

Connection type

Female 1/4" BSP

Suction

-7kPa

Max operating pressure

10 Bar

Meets the OSHA directives

Yes

Meet the EU machine directives

Yes
